

THE ERICSSON SUCCESS STORY

CUSTOMER SUCCESS CASE

"With BVQ we have achieved a good mix and balance of storage pooling with performance load isolation. This resulted in better storage performance and optimized storage efficiency".

Dr. Reinhard Waas, Team Leader Unix and BVQ-users, LHS Telecommunications GmbH & Co. KG

ADVANTAGES WITH BVQ

More transparent capacity and performance utilization of the storage systems

BVQ is business and service level oriented as requested

Cost savings due to allocation of storage volumes now based on clear facts

Performance peaks and bottlenecks can now be avoided

Clear presentation with the BVQ GUI

Fast and uncritical installation

Ericsson is a world-leading provider of telecommunication equipment and services to mobile and fixed network operators.

Over 1,000 networks in more than 180 countries use our network equipment, and more than 40 per cent of the world's mobile traffic passes through Ericsson networks.
