

## THE VOITH SUCCESS STORY

### CUSTOMER SUCCESS CASE

"BVQ allows us a detailed analysis of the performance and utilization of our storage infrastructure. With this information and through the management of BVQ we could avoid bottlenecks and subsequently achieve higher utilization while improving performance".

Bernd Nagel, Team Manager Global Application Infrastructure Voith IT Solutions

Voith sets standards in the markets energy, oil & gas, paper, raw materials and transport & automotive.

Founded in 1867, Voith employs more than 42,000 people, generates €5.6 billion in sales, operates in more than 50 countries around the world and is today one of the biggest family-owned companies in Europe.

#### CUSTOMER REQUEST

A solution for transparent performance management and to enable optimized load distribution within the virtualized (SVC) storage infrastructure.

#### ADVANTAGES WITH BVQ

Performance management and load monitoring in real time

Fast implementation

Avoidance of performance peaks and bottlenecks

Business and service-level oriented

Easy management of SVC infrastructure
