## Contact the BVQ Team

20 people are working in the SVA BVQ team to develop the best software and support you using it. We have collected a few statements from the team here.

**Thomas – BVQ  
Product Manager**

"My vision of BVQ is a monitoring tool providing an excellent overview and the best analysis for your storage environment, being able to solve the real hard performance problems in the shortest time"

German - English

**Michael - Worldwide  
Tech. Sales &  
Performance Analyst**

"We often need only 10 minutes to find the reasons for long lasting performance issues"

German - English -  
French

**Felix - Performance  
Analyst, Training,  
Support & Software  
testing**

"I love to collect all type of feedback and new ideas from our customers to improve BVQ even further. Short communication paths in our team allow me to bring them forward very quick."

German - English

**Thorsten -  
Performance Analyst,  
Training, Support &  
Software testing**

"The aim of BVQ is to make your storage environment stable, high available and as efficient as possible. In addition to that we often use it as monitoring and reporting tool. Let me demonstrate you our capabilities around BVQ!"

German - English

**Gustavo - Sales  
Assistant**

"I am happy to assist you when you plan a BVQ PoC or an offline scan"

German - English -  
Spanish

## BVQ USA Team

Our USA team is there to provide you the best customer support.

**Don - Tech. Sales & Performance Analyst**

English

**Anne-Kathrin - SVP  
SVA Software Inc. /  
BVQ WW Sales**

“Most of my SVC / Storwize customers use BVQ and all of them are so satisfied with the possibilities and the additional services we can provide with BVQ”

German - English -  
French - Spanish

**Rosario - Performance Analyst, Training & Support**

English - Spanish
